Projects

Snake-game

Description: It is a console known to everybody snake game with borders. I used only my knowledge from OOP to make it. Everytime you bite a foot it changes from asterisk(*) to dollar ($) to hash(#).

Technologies: C#

Development Tools: MS Visual Studio

PetStore

Description: PetStore is a web shop. You can buy food, toys or even a pet. This is my final project from C# web development path at Software University .

Technologies: C#, ASP.NET Core 3.1, EF Core

Development Tools: MS Visual Studio and SQL Server Management Studio (SSMS)
